

To Whom It May Be Concerned:

I have recently been informed that the FCC may be replacing the FM station that I listen to by a LPFM station. The station is K-LOVE. I am unclear as to why it is that you would discontinue a station that has been prominent for so many years. K-LOVE is a very special station to me. I am able to turn it on, knowing that I will not have to "cover the ears" of any little ones around me. Not only that, it truly is positive and encouraging. In a world that is so full of negativity and degradation, it is a light, a beacon of hope. I cannot understand why you would stand against all that is good?! It not only brings hope and light to me and my family's personal lives, it also brings hope to our community and to the world. The down town community I live in is full of crime and hate and the K-Love station has done a lot of good to my community by bringing a message of love, hope, grace, peace, joy and forgiveness and by reaching out to others. K-LOVE is a help to people around the world. I have personally heard testimonies of people that have been changed just by turning their dial to K-LOVE's station. Again, how can you stand against all that is good?! Please, I ask you, not only with myself in mind, but also for the lives of people who have been literally, saved, please do not remove this station. Think of the lives of those who WILL be lost due to its removal. Thank you for not just considering the numbers and money in this situation, for there will be a reward greater than riches and recognition who love and surrender to the Lord Jesus Christ. Remember, "to him who knows to do good and does it not; to him it is sin." Thank you so much for taking your time in reading this email, and I'm sure many like it, in its entirety. I pray that you will be led by a force greater than yourself in making this decision and be led by the hand of peace and grace in its commitment. Again thank you and God bless you and yours.

Hope
